

## CAT-300

### 1.8MHZ - 50MHZ MANUAL ANTENNA TUNER

**Max Power: 300W (SSB)**

**Tunes dipoles, verticals, mobile whips, long wires and other antenna designs in all bands between 1.8MHz and 50MHz**

**Input impedance: 50 Ohm**

**Output impedance: 10 - 600 Ohm**

**Cross needle meter displays forward power, reverse power, and SWR simultaneously**

**Voltage required for meter light: DC 11V - 15V, 250mA approximate**

**Weight: 6 lb approximate**

**Dimensions: 10 x 4 x 8 inches approximate**
