

2m (144-148MHz) band expanding tool for HFJ-350M

C/w wire measure to provide easy $1/2\lambda$ length adjustment.

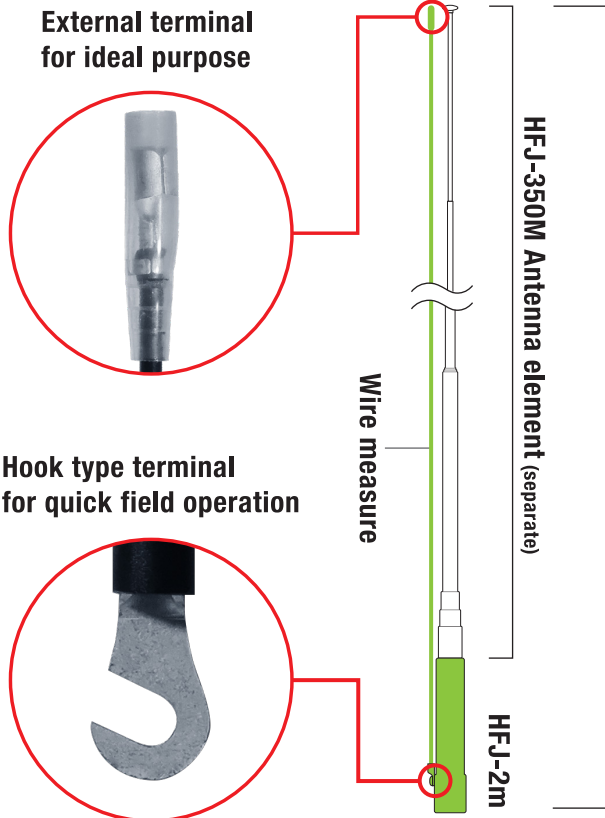

HFJ-2m

For the HFJ user,
Our evolution never stops.
Firstly, We are done to conquer the 2m band.

- Optional VHF 2m band extension for HFJ-350M
- All of the 4MHz bandwidth 144 to 148 with $1/2\lambda$ Grand independent.

HFJ-350M (sold separately)
3.5-50MHz 9-Bands Portable Telescopic Antenna

Specifications

Model	HFJ-2m
Outline	VHF band Antenna cartridge
Frequency	144-148MHz
Gain	$1/2\lambda$ Ground independent
VSWR	in-band 1.5 or less
Impedance	50Ω
Length	Approx.9.5cm / With HFJ Antenna element Approx.110cm
Weight	Approx.70g / With HFJ Antenna element Approx.130g
